

Kevin Smith

***Chief Executive Officer
Arevon***

Kevin Smith brings more than 35 years of experience in both renewable energy and conventional energy to his role as Chief Executive Officer at Arevon, with the last 15 years in solar and energy storage. Since joining Arevon in mid-2023, the company has closed project financings of more than \$3 billion and started construction on 2,000 megawatts of projects. The company continues to expand its expertise and footprint in the U.S., while fostering a diverse and inclusive company culture. For the last five years, Smith has served on the Board of Directors of the Solar Energy Industries Association.

Prior to joining Arevon, Smith served as CEO Americas for London-based Lightsource bp, where he spearheaded the company's expansion into the U.S. market. Under Smith's leadership, Lightsource bp successfully developed more than \$4 billion in solar assets and established a 20,000 megawatt development pipeline of projects. Prior to Lightsource bp, Smith was CEO for SolarReserve, Senior Vice President at Invenergy, LLC, President of Insight Energy, and Chief Operating Officer in London for Rolls-Royce Power Ventures. At Invenergy, Smith led the company's development activities and early entry into the wind energy markets in 2004, resulting in one of the largest privately owned renewable energy company in the U.S.

Over his career, Smith has actively led the development, financing, and construction of privately-owned energy projects in 26 states in the U.S. and more than a dozen countries across five continents with power sales contracts valued at more than \$70 billion. Smith earned his MBA from the University of Chicago and his Mechanical Engineering degree from Purdue University. In 2008, Purdue University named him the Mechanical Engineer of the Year for his service in the energy industry.
